## Study Information

We are an international team of scientists (<https://coronasurveys.org/>) from several research institutions around the world. We collect data to estimate the number of persons with symptoms compatible with COVID-19 in different countries, with the goal of tracking the evolution of the outbreak.

Please help us by answering this survey once a day, even if your answers do not change.

Pressing the "submit" button implies explicit consent of the following terms of this survey:

- Data are collected in an anonymous form. The researchers cannot backtrace the data to the participants.
- Data can not be modified nor deleted once the survey is completed.
- The data collected will be made public under the Open Data Commons Attribution License.
- Cookies are used to match responses from the same participant, which will be identified with a random string. This string will be made public with the response.

In case of comments or questions regarding data protection, you may contact Antonio Fernández Anta ([https://people.networks.imdea.org/~antonio\\_fernandez/](https://people.networks.imdea.org/~antonio_fernandez/)) at IMDEA Networks Institute (<https://www.networks.imdea.org/>), Spain, at [coronasurveys@imdea.org](mailto:coronasurveys@imdea.org) ([coronasurveys@imdea.org](mailto:coronasurveys@imdea.org)) with the subject "coronasurveys".

## Survey Questions (completing this survey takes less than 2 minutes)

\*

Please choose a country

?

You can fill the survey several times for different countries if you know people there

Please choose...

\*

How many people do you know personally in this geographical area?

?

Include only those whose health status you are likely to be aware of.

**\* How many of the above have been diagnosed or have had symptoms compatible with COVID-19, to the best of your knowledge?**

**❓ Include those who had the symptoms and have recovered. Common symptoms include fever, tiredness, dry cough. Other symptoms include shortness of breath, aches and pains, sore throat, and very few people will report diarrhoea, nausea or a runny nose. (From the WHO webpage.)**

• **From these people, how many have recovered?**

**Is this the first time you complete this survey?**

<div>✓ Yes</div>	<div>⊘ No</div>
